

Position of Assistant Professor or higher in Marine Ecology and Conservation

The Institute of Marine Ecology and Conservation at National Sun Yat-sen University, Taiwan invites applications for a full-time assistant professor or higher position.

Applicants with expertise in marine ecology and biological conservation are especially encouraged to apply.

The successful candidate will be required to develop externally funded research programs and offer excellent teaching completely in English or in English and Chinese for introductory, upper-level undergraduate and graduate courses. The candidate must be able to teach at least two of the following courses: Marine Ecology, Marine Conservation, Management and Mitigation of Marine Ecosystems, and Sustainability of Marine Resources, as well as the applicant's area of expertise. Service to the department and university is also expected, including graduate student recruitment, student mentoring, university committee membership, campus administration, environmental education outreach, and international exchange teaching and research program organization and management.

Applicants are expected to have a Ph.D. degree in marine ecology and conservation or a related field. Post-doctoral experience is highly desirable. Publication of at least three papers in SCI journals in the related research field is required. A single file for the electronic application should include a cover letter, CV, statements of teaching and research interests, a copy of diploma of doctoral degree and transcripts of master's and doctoral degrees, a publication list and one representative paper within the past five years, three recommendation letters, courses planned to offer, and a future research plan.

The file should be sent to Dr. Meng-Hsien Chen at mhchen@mail.nsysu.edu.tw and Ms. Dan-Ei Lo at maecaa@mail.nsysu.edu.tw no later than August 31, 2020.
